An aerial photograph of a school campus. The main building is a large, white, L-shaped structure with a flat roof. To the right of the building is a green field. A line of yellow school buses is parked in front of the building. The campus is surrounded by trees and other buildings. In the background, there are more buildings and a road.

We the staff of the 1967 Sinewesah dedicate this issue to.....

SCOTT FOXLEY

For your unselfish devotion to not only athletics, but also to the general student body. This devotion stems from your undergraduate days here at PHS as a student, athlete, student body officer, and it is reflected in your interest in the activities of Pasco High School.

In our modest way we therefore dedicate to you the 1967 Sinewesah.

The walls are a light color, and the floor is dark. The perspective is from the end of the hallway, looking down its length.

MY IMPRESSION OF PASCO HIGH SCHOOL AND STUDENTS: I like Pasco High School very much and especially it's school system. Teachers and students are really nice and I would like to stay here for more than only a year. Going to an American High School is in my opinion the greatest experience a European student can have.

INTERESTS: My interests here are quite different from those at home. I like American Football and I'm interested in the way you live here and in your customs, as well as in all the school activities.

WHAT I LIKE TO TAKE BACK TO MY COUNTRY: There are so many things I want to take back with me. First of all, American clothes. I like the blouses and dresses here and then, some of your food, like hamburgers and cheeseburgers. And a wish that can never come true, American schools with their various activities, the students and teachers.

You compliment us America, but Pasco High School sincerely thanks you, we will always remember you with fondness for you are a truly wonderful person.

IF

Rudyard Kipling

If you can keep your head when all about you
Are losing theirs and blaming it on you,
If you can trust yourself when all men doubt you,
But make allowance for their doubting too;
If you can wait and not be tired by waiting,
Or being lied about, don't deal in lies,
Or being hated don't give way to hating,
And yet don't look too good, nor talk too wise:

If you can dream—and not make dreams your master;
If you can think—and not make thoughts your aim,
If you can meet with Triumph and Disaster
And treat those two impostors just the same;
If you can bear to hear the truth you've spoken
Twisted by knaves to make a trap for fools,
Or watch the things you gave your life to, broken,
And stoop and build 'em up with worn-out tools:

If you can make one heap of all your winnings
And risk it on one turn of pitch-and-toss,
And lose, and start again at your beginnings
And never breathe a word about your loss;
If you can force your heart and nerve and sinew
To serve your turn long after they are gone,
And so hold on when there is nothing in you
Except the Will which says to them: "Hold on!"

If you can talk with crowds and keep your virtue,
Or walk with Kings—nor lose the common touch,
If neither foes nor loving friends can hurt you,
If all men count with you, but none too much;
If you can fill the unforgiving minute
With sixty seconds' worth of distance run,
Yours is the Earth and everything that's in it,
And—which is more—you'll be a Man, my son!

If you
haven't time
to do it right —
when will you find
time to do it over?

Ulcers come
from mountain
climbing over
molehills

FOR THOSE PEOPLE
WHO LIKE TO
WORRY,
THIS IS THE LIFE !

Many people
aim to
do right, but are
just poor shots.

I have enjoyed
being in Chemistry
even though I was

Mrs. Birdsell,

Not only do I respect
you as a good teacher but I
have learned to like you
personally as the year went on.
I'm glad I got you for my Chem
teacher this year but I hope
I never have the luck of getting
it again.

Joyce hePage

Mr. Birdsell,
Thank you so
much for the help
and encouragement
I've given me this
past year. I
never would have
made any
it through the
teacher. I hope
other year at PHS and my future
college is half as rewarding as
year in chem. been.
See you again next year,
Janette
